Model : 1BAUA0 CGU

A IQAir Purifier Health Pro High Performance 1BAUA0 CGU

Manufacturer : IQAir

Ultra High-Performance Particle Control for Allergy Sufferers The HealthPro features the same advanced micro- and nano-particle filter technologies as the HealthPro Plus, however without the gas and odor filter (V-5 Cell). The HealthPro effectively removes every type of particulate air pollutants, including all common allergens. The system has a spare compartment that can at any time be upgraded with a the V-5 Cell (wide-spectrum gas and molecular filter) to help eliminate gaseous chemicals and odors. This makes the HealthPro the ideal choice for allergy sufferers and other health-conscious individuals that need ultra high-efficiency particle removal with the option of later adding gas and odor removal The HyperHEPA difference Most air purifiers only filter particles larger than 0.3 microns in size, but 90% of all ultra fine particles are smaller than 0.3 microns. This means that most air purifiers are only filtering 10% of the particles in your air. IQAir's patented HyperHEPA filters are the first filters tested and certified to filter down to 0.003 microns with a guaranteed minimum efficiency of over 99.5%. This allows your HealthPro to capture the ultra fine particles that other air purifiers miss. $.00 ShippingIQAir systems are recognized around the world as the most advanced room air cleaners ever designed. 1BAUA0 CGU

Price : $849.00
