Miele 24 Whole Bean Ground Built In Coffee System with Navitron

Manufacturer : Miele

At the turn of the century, Miele created the atmosphere of a European café in homes around the globe when it introduced the first built-in coffee system. As the originator of this appliance product category and in keeping with their promise of Forever Better, they proudly introduce an all new coffee system, model CVA4070. *Like its predecessor this system brews up delicious espresso, cappuccino, latté or regular coffee quickly and easily. Using whole coffee beans, the system grinds to your personal settings to deliver a truly tailored, flavorful beverage with magnificent crema. The most notable enhancement to this system is the addition of Miele's signature, easy-to-use navigational electronics, Navitronics. Accessed via the centered touch screen control panel, the task-driven menu system guarantees simple operation and intuitive use.

The CVA4070 boasts an impressive list of features that make creating dynamic and remarkable beverages for your family and guests fun and great to enjoy. Whole coffee bean system Door hinged left / concealed handle Patented brewing unit Conical grinding system Grinder bypass 500g coffee bean container Grinds from 6g to 12g of coffee beans per cup Grinder settings are adjustable (coarse to fine) Pre-brew system (on/off) Large-capacity container for used coffee grounds 2.64 quart (2.5 liter) water reservoir Adjustable cup size settings Variable water temperature control Water hardness setting Integrated LED lighting Dual dispensing spouts Hot water spout Frothing system Safety lock Multi-lingual LCD display, 7 languages Stand-by function Delay start / stop function Fault diagnosis Width: 23.62" (60cm) Automatically prompts you to add fresh water and coffee beans* Special Freight Charge delivers to your Door.
