

Miele 20 Nespresso Coffee System with Large Capacity Container

Model : CVA2650

Miele 20 Nespresso Coffee System with Large Capacity Container

Manufacturer : Miele

The CVA2650 * represents a unique combination of Miele's exacting engineering and the exclusive savoir faire of the Nespresso coffee capsule - two international brands synonymous with expertise in their fields - working in tandem to produce the ultimate at home coffee system. There is much doubt that your friends and family will have similar tastes when it comes to their favorite hot beverage. Some people will like their coffee short and strong, others will prefer theirs mild with plenty of froth. The CVA2650 is the perfect solution for serving up a tailored beverage to engage even the most discriminating coffee drinker. An integrated capsule carousel within the system holds 20 individual capsules enabling you to offer 5 different blends - something for everyone! Froth is the uncontested crowning glory of any coffee and the Miele system is an expert in this field. Its unique Cappuccinatore is an easy to use frothing cup that either delivers the froth directly into the cup or retains it, providing you the pleasure of placing it into the beverage. The CVA2650 coffee system can be installed virtually anywhere in your home - offering a plethora of possible positions in new construction or post remodel applications. As an example of the installation options in a kitchen, the CVA2650 system can be mounted above the counter, rest on the counter or be installed into your cabinetry at a variety of heights above, below or near other Miele appliances or somewhere special by itself. Installation restrictions are virtually nonexistent with this revolutionart product and patented door hinge making access to the water reservoir convenient.
